-  **Safe** - All-natural, biodegradable ingredients.

Product Advantages

All-temp detergent.

Tackles tough greasy soils.

Concentrated and enzyme-based.

Cost-effective.

What is Beyond Green Cleaning™ Automatic Dishwashing Detergent?

It is an all-temperature, automatic detergent for use in both low and high temperature dishwashing machines. It is a non-chlorinated, non-foaming, highly-concentrated dishwashing detergent. This concentrated detergent is designed to tackle tough greasy soils with low doses.

How to Apply?

It is not intended for manual washing. Detergent dosages will vary depending on type of dishwashing machine being used.

Remove excess and pre-rinse dishes before washing. Properly load dishes according to machine directions. Set dispenser according to the manufacturer's directions. It may be used with a probe or probeless dispenser.

Low Temperature Dishwashing Machines:

Charge tank with 3-4 milliliters of this product per 1 gallon of water. Run test racks to verify cleaning efficiency and adjust concentration if warranted.

High Temperature Dishwashing Machines:

Charge tank with 4-7 milliliters of this product per 1 gallon of water. Run test racks to check cleaning efficiency and adjust concentration if warranted.

For excessive hard water situations, an increase in All Temperature Detergent dosage is recommended.

How is It Packaged?

It is packaged in recyclable HDPE 5-gallon pails (XXXX-005).

Product Specifications

pH:	Neutral
Appearance:	Liquid
Color:	Clear
Flash Point:	None
Fragrance:	Pleasant
Shelf-stability	One year
