

San-A-Safe - Sanitizer & Cleaner

-  **Effective** - EPA registered product kills bacteria, viruses and fungi.
-  **Versatile** – Sanitizes, cleans and deodorizes.
-  **Fast** – 60 second bacteria, viruses and fungi kill time.
-  **Safe** - Low toxicity made from 100% all-natural ingredients.

What is San-A-Safe™?

A Sanitizer - Kills 99.9% of germs such as MRSA, Staph, Strep, E.coli, Listeria, Salmonella, Norwalk viruses, Avian Influenza and Stachybotrys chartarum (black mold) on hard, non-porous surfaces in 60 seconds.

A Cleaner - Covers over 90% of all general cleaning needs and safe to use on any water-safe surface. Pleasant to use and leaves surfaces shining and the area smelling naturally clean.

A Deodorizer - Eliminates offensive odors caused by bacteria.

Where to Use?

Restaurants, schools, day care facilities, athletic facilities, food processing restrooms, floors, walls, counters, showers, waste containers and high contact areas like doorknobs, toys, desks, telephones, keyboards and exercise equipment.

San-A-Safe™ is not affected by organic material and does not require the two-step cleaning process most conventional sanitizers need. Most Quats, hydrogen peroxide and chlorine-based sanitizers require a pre-cleaning before use.

How to Apply?

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Food Service Areas: Apply with a mop, sprayer, cloth or as a dip. Allow solution to remain on surface for 60 seconds and then wipe, scrub or rinse surfaces to remove soil. Wipe dry with cloth, mop, sponge or allow to air dry.

Restrooms & Locker Rooms: Apply with a pressure sprayer and allow solution to remain on surface for 60 seconds and then wipe or rinse.

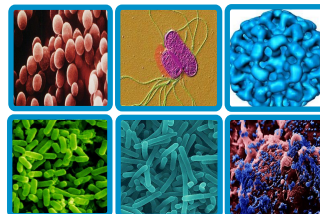

Floors: For periodic cleaning, pre-spray the floor and allow solution to remain on surface for 60 seconds and mop with water only.

General Cleaning: Spray soiled surface and allow solution to remain on surface for 60 seconds. Wipe dry with cloth, mop, sponge or allow to air dry.

Deodorization: Apply with a mop, sprayer, cloth or as a dip. Allow solution to remain on surface for 60 seconds and then wipe, scrub or rinse surfaces to remove soil.

How is it Packaged?

In recyclable HDPE Portion Control quarts, 2/32 oz (with 4/32 oz 2nd Bottles) (9310-002); 4/32 oz (with 2/32 oz 2nd Bottles) (9303-032).

Bacteria	Kill Rate In 60 Seconds
MRSA NCIMB 50143	99.99%
P. aeruginosa	99.9%
S. aureus	99.9%
Listeria	99.9%
