What is Total Surface Care™?

Total Surface Care™ is a fragrance-free, multi-purpose cleaner with high cleaning performance. Provides rapid drying and a superior, streak-free cleaning to remove dirt and smoke film from a variety of surfaces. Highly-dilutable formula applied with a mop, auto scrubber or spray-and-wipe cleaning.

What is Nano-Natural Technology?

Nano-Natural Technology is the use of extremely small molecular structures and all-natural ingredients. One nanometer (nm) equals one ten-thousandth of the thickness of a human hair. Nano-Natural Technology involves Active-Nanoids which dissolve and remove soil from any surface without using chemicals. Total Surface Care™ breaks down soil and stains into microscopic particles that disperse in water and repel one another. The particles are then easy to remove and less likely to re-adhere to the cleaned surfaces. The molecular structure of these particles is so small they can forcefully penetrate molecules of daunting stains and soil for quick and easily removal.

Where to Use?

Especially designed for everyday cleaning of kitchens, mirrors, glass, waxed floors, chrome, restrooms, porcelain, fiberglass, appliances, stainless steel, countertops, vinyl and walls.

How to Apply?

General Cleaning: Dilute 4 ounces per gallon (1:32) to 12 ounces per gallon (1:10) with water. Spray surface and wipe clean with sponge, cloth or rinse with water.

Mopping: For daily damp mopping, dilute product 1:32 (4 ounces per gallon) with water. Rinse mops frequently and change solution as needed.

Auto Floor Scrubber: Dilute 1:64 (2 ounces per gallon) with water. For best results, employ the double-scrub method.

How is it Packaged?

Total Surface Care™ is packaged in recyclable HDPE quarts, six per case (9802-006); Portion Control (2/32 oz Portion Control Bottles with 4/32 oz Secondary Spray Bottles) (9810-002). Please inquire about larger packaging and pricing.

Product Advantages

Multi-purpose cleaner.

Rapid-drying streak-free.

Concentrated, high dilution.

Does not contain ammonia.
